Blueridge is a stationary and mobile laminate shelving collection created for high-use areas. Designed to coordinate with our Lenoir line of lounge seating, with matching curves and lengths.

FEATURES

- Shelves crafted with the high quality materials for strength and durability.
- Construction features 1" thick core with high pressure laminate on both sides with a 3mm PVC edge, and brass inserts for the strongest possible connection points.
- Shelving materials chosen to support the weight of books.
- Line offers straight, inner curve and outer curve shapes for creative space design.
- Laminate construction provides a wide array of color and pattern choices.

STATIONARY SHELVING

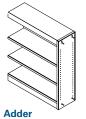

- Blueridge stationary shelving has a modular island/starter/adder/end design, which allows for easy reconfiguration.
- Available in single- or double-faced, straight and curved versions.
- Available heights: 30", 36", 42", 48", 60", 72", and 82".
- Units are available in 30", 31", 32", 33", 34", 35" or 36" widths.
- Curved units are available as inner or outer curves at 60" and 72" radii.

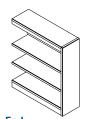

Stand-alone, free-standing, with two end panels

One end panel, one intermediate panel. Must be ordered with an end panel.

Run of shelves with one intermediate panel. Must be ordered with a starter and end panel.

Ending point. Must be ordered with a starter unit.

Height Adapter

Intermediate panel machined for different heights. Adapter is on left side. Only starters and adders can be height adapters.

Page 1 of 10

MOBILE SHELVING

- Blueridge mobile shelving is free-standing only.
- Available in single- or double-faced, straight and curved versions
- Available heights: 30", 36", 42", 48", 54"
 and 60".
- Straight shelves available in 30", 36", 42", 48", 54", 60", 66" and 72" widths.
- Curved shelves available in 60", and 72" radius, with approximately 36" widths. See page 10 for drawings.
- Single faced mobile shelves are 16" or 18"
 depths. Double faced is 24" depth
 - 3" heavy duty exposed locking casters used.
 - Units come standard with a double faced laminated back panel.

CONSTRUCTION

Sizes

• Selected sizes are nominal and actual dimensions vary depending on the selected unit type. Adder units and end units have a width equal to the nominal width whereas island and starter units have a width that is 1" larger than the nominal width, creating a run of shelving that is the selected nominal width on centers.

Creep Factor

 Due to variations in laminate thicknesses, there is a creep factor to the overall length of a shelving run where the actual length may be longer than expected. If there is a critical dimension that must be fit, it is the customer's responsibility to contact Palmer Hamilton.

Toe Kick

on stationary shelving and is constructed of 1" thick particle board core with a vertical grade high pressure laminate on both sides, with a 3mm PVC band on two long edges. The toe kick is machined for recessed specialty threaded connectors to engage metal inserts in the end and intermediate panels.

Modular Top

 The modular top is to be used on stationary shelving and is constructed of 1" thick particle board core with a vertical grade high pressure laminate on both sides, with a 3mm PVC band on two long edges. The modular top is machined for specialty threaded connectors to engage

metal inserts in the end and intermediate panels.

Page 2 of 10

Horizontal panel

 The horizontal panel is to be used on mobile shelving and is constructed of 1" thick particle board core with a vertical grade high pressure laminate on both sides, with a 3mm PVC band on all edges.
 The horizontal panel is machined for metal inserts to engage with specialty threaded connectors in the end and intermediate panels.

End and Intermediate Panel, Stationary Shelving

 The end and intermediate panels for stationary shelving are 1" thick particle board core with a vertical grade high

> pressure laminate on both sides, with a 3mm PVC band on two vertical edges and the top edge. The inside face(s) of the panels receive two rows of holes per face board to accept shelf pins, spaced 32mm

apart on center. The panels are grooved to accept a 1/16" thick back panel unless otherwise noted. The panels are machined for metal inserts to engage with specialty threaded connectors in the toe kicks and modular tops.

End and Intermediate Panel, Mobile Shelving

 The end and intermediate panels for mobile shelving are 1" thick particle board core with a vertical grade high pressure laminate on both sides, with a 3mm PVC band on two vertical edges. Any mobile shelving unit over 36" in width will receive

an intermediate panel. The inside face(s) of the panels receive two rows of holes per face board to accept shelf pins, spaced 32mm apart on center. The panels are grooved to accept a 1/16" thick back panel unless otherwise noted. The panels are machined for specialty threaded connectors to engage metal

inserts in the horizontal panels.

Back Panel

 All double faced and single faced island units are two sheets of vertical grade high pressure laminate, glued back-to-back.
 Single faced perimeter shelving units are one sheet of vertical grade high pressure laminate glued to 1/8" MDF.

Beautifully crafted shelving to enhance media spaces.

Adjustable Shelf (Book Case)

 The adjustable shelves are constructed of 1" thick particle board core with a vertical grade high pressure laminate on both sides, with a 3mm PVC band on one long edges. The underside of the shelves are routed to accept shelf pins.

Picture Book Shelf

 The adjustable shelves are constructed of 1" thick particle board core with a vertical grade high pressure laminate on both sides, with a 3mm PVC band on one long

edges. The underside of the shelves are routed to accept shelf pins. The top of the shelf receives five evenly spaced black wire dividers which are inserted into 3/16" diameter holes. Shorter width shelves may receive less than five

Fixed Shelf

 All shelving units 60" and higher require a shelf to be attached to the end and/ or intermediate panels by means of (2)
 L-shaped brackets and pan head wood

dividers due to space limitations.

screws that will align with the shelf pin holes on vertical panels.

Metal Shelf

 The adjustable metal shell is constructed of 20 gauge steel and is 3/4" thick with the front and rear edges being square formed.
 The ends of the shelves are notched to accept shelf pins. The shelves are powder coated.

Metal Shelf Finishes

Corner Fillers

 The corner fillers are constructed of 1" thick particle board core with a vertical grade high pressure laminate on one side and a backing sheet on the back side. Solid hardwood cleats are provided for attachment to the shelving run and the wall.

NOTE: For a proper fit, corner fillers may require trimming on installation.

Top Fillers

• The top fillers are constructed of 1" thick particle board core with a vertical grade high pressure laminate on one side and a backing sheet on the back side, and receive a 3mm thick eased external band on one edge in the length dimension. Solid hardwood cleats are provided for attachment to the shelving run and the wall.

NOTE: For a proper fit, top fillers should be ordered oversized and require trimming on installation.

Face Fillers

 The face fillers are constructed of 1" thick particle board core with a vertical grade high pressure laminate on one side and a backing sheet on the back side. Solid hardwood cleats are provided for attachment to the shelving run and the wall.

NOTE: For a proper fit, face fillers should be ordered oversized and require trimming on installation.

Laminates

- **Group 1:** Choose your colors from Wilsonart® laminates. See their website. Palmer Hamilton standards are most colors in Type 335 laminate and finish type ending in -38 or -60. Exceptions apply, including colors that begin with "Y" or end with K-38 or K-60.
- Group 2: Standard Pionite®, Nevamar®, and Formica® laminates, and non-standard Wilsonart® laminates Type 335 and 107 Recycled Content, and finish types not ending in -38 or -60.
- Group 3: Wilsonart® Specialty Types 136 / 137 Chalkboard Laminates, and premium Aborite®, Pionite®, Nevamar®, and Formica®
- Group 4: Non-Standard Premium Wilsonart® Laminate Types 362 (VDL, Y-Type), 156/336 (Markerboard), 376-HD / 366 Wilsonart® HD, and 515 Compact Laminate.
- All premium laminates are subject to an upcharge.

Page 5 of 10

WARRANTY

15 year standard warranty. See our website.

SHIPPING

Ships knocked down. Note that back panels are one solid piece, so the flat packaging dimensions will be at least the width and length of the highest and / or widest unit. We rarely ship one unit at a time, therefore we package units to utilize the best shipping practices.

Please contact us for the specific shipping dimensions, weight and cost of your order.
