

22M/MT FOLDABLE TABLES

Tables in multiple top shapes that fold and store easily. The line has two leg configurations, one with adjustable heights from early childhood to wheelchair-accessible.

FEATURES

- Unitized frame offers a longer lasting table that doesn't rely on the top for its strength. Holds up to the rigors of today's school environment.

- Folded tables easily clear standard 7' door frame.

- Designed to store flat, one table is about 10" in width, each additional table adds 9" to the nested depth. See dimensional drawings on page 6.

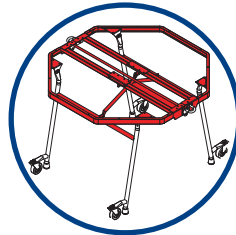

- Our height-variable models have legs that adjust in 1" increments from 25" to 31" high.

These are suitable for early childhood to wheelchair-accessible sites.

It is recommended that you order in your preferred height; while field adjustable, it is easiest for our team to prepare your table to order.

FRAME

- Tables are built with a self-supporting unitized frame design, with all critical parts

attached to the frame, not the table top.

- Table sides fold flat for compact storage. Framework completely enclosed for safety.

- Center Latches are accessible from either side of table. Two-stage latches have safety stop and in-use positions for safer table operation.

Latches are steel for safety and long life. They are located where they cannot be accidentally opened or knocked out of adjustment.

- All pivot point hardware is permanent and tamper proof.

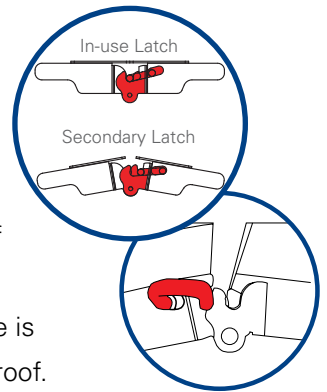

Nylon bushings are used at all critical pivot points, with no metal-to-metal contact.

- Tables fold together in a single motion from either side.

- All shapes have a full perimeter 16-gauge steel channel apron.

- 22M models have 1" diameter 14-gauge mechanical steel tubing for the end leg assembly.

- 22MT models have a 1"x 2" rectangular 14-gauge mechanical steel tubing for end leg assembly.

Field adjustable height: 25", 29", 30" or 31" table height options.

- All metal parts are thoroughly cleaned to resist corrosion and provide maximum paint adhesion, finished with high-grade electrostatically applied baked-on epoxy powdercoat for superior resistance to abrasion, marring and scratching. The metal finish is a baked-on, lightly textured polyester powder coating.

LEGS AND CASTERS

- All tables are designed with legs that have rubber crutch tips (22M) or non-marking glides (22MT). Tables do not roll when fully opened.
- Casters only reach the floor when the table is folded.
- 22M tables have four 3" diameter x 1" wide non-marking Poly II gray rubber, ball-bearing swivel casters.
- 22MT tables have non-marking elastomer twin wheels with braking mechanisms. The casters are 2.4" wide, with wheels of 2.95" diameter.
- We select casters that have abrasion resistance, good impact strength, quiet operation, and rolling ease. They are non-marking and resistant to water, oil and most acids and chemicals.

COLORS/FINISHES

Frame Finishes

- Durable powder coat finish, in our standard three options, and ten custom frame colors. See our website for non-standard colors. Minimum orders apply. Upcharge may apply.

Black (BLK)

Chameleon (CHA)

Metallic Silver (MS)

Tops

- Table Tops are constructed of 3/4" M3 particle board. .030" HPL (decorative laminate) on the top side and a .02" balanced black backer on the bottom of the table core for stability and moisture resistance.
- Tabletop corners have 1/2" radius. Total table top thickness is .82".
- Custom logos are available at an upcharge.

Laminates

Following is a general guide for our laminate options and pricing. Group 1 laminates are included in our base price.

Group 1: Choose your colors from Wilsonart® or Formica® laminates. See their websites for selections. For Wilsonart®, our standards

Tables fold flat for compact storage: six tables require less than 5'x8' footprint.

are most colors in Type 335 laminate and finish type ending in -38 or -60. Exceptions apply, including colors that begin with "Y" or end with K-38 or K-60. Standard Formica® Laminates are Grade 12 or Grade 20 ending in finish type -58 and -43.

Group 2: Standard Pionite®, Nevamar®, and non-standard Wilsonart® laminates Type 335 and 107 Recycled Content, and finish types not ending in -38 or -60.

Group 3: Wilsonart® Specialty Types 136 / 137 Chalkboard Laminates, Arborite®, and premium Formica®, Pionite®, and Nevamar®. **Group 4:** Non-Standard Premium Wilsonart® Laminate Types 362 (VDL, Y-Type), 156/336 (Markerboard), 376-HD / 366 Wilsonart® HD, and 515 Compact Laminate.

Premium laminates are subject to upcharge.

Edges

- Standard is EdgeGuard™, a sprayed-on polyurea eased edge treatment that provides superior resistance to moisture, eliminates unsanitary food traps, and is extremely tamper resistant. Edges stay sealed, preventing peeling and chipping.

EdgeGuard™

STORAGE FOOTPRINT

- The 22M and MT models fold flat, with less than 10" center-to-center. Add 9" for each additional table.

CERTIFICATIONS AND PERFORMANCE STANDARDS

- UL Listed – Tested by Underwriters Laboratories. These tables meet the more stringent safety standards contained in UL Standard for Safety for Folding Rollaway Tables, UL 2040.
- We have been awarded the Greenguard® and Greenguard® Gold by the Greenguard® Environmental Institute. UL GREENGUARD Certification for low chemical emission products helps demonstrate both compliance with key chemical emission standards and commitment to healthier indoor environments. Learn more about this program at: www.ul.com/services/ul-greenguard-certification. UL Greenguard lists more than 150,000 UL GREENGUARD-certified products in its online product guide. The Palmer Hamilton products are found at this link or searched at www.spot.ul.com.

WARRANTY

- See Palmer Hamilton Warranty at www.palmerhamilton.com/resources/warranty

SHIPPING

- These tables ship fully assembled
