

Concrete and coated metal outdoor furniture

Coordinate outdoor spaces with architectural style

GETZEN

palmer
HAMILTON

The **Getzen Concrete** line expands usable space of a modern building beyond its walls. Appreciated for strong lines, sculptural design elements, and natural materials, these pieces bring an elegant touch to any outdoor space. Our palette of subtle colors can be matched or coordinated to building or floor surface for an aesthetic that is both man-made and natural. The concrete material is durable and requires little maintenance.

concrete

Our **Getzen** line offers many wheelchair accessible tables to maximize full community inclusion.

*Move your
classroom outdoors*

Lecterns and desks for a collection of spaced benches create a non-traditional outdoor learning environment while gameboard tabletops encourage a playful use of a plaza, park or campus.

GETZEN

palmerHAMILTON

A more traditional design line, **Getzen** thermoplastic coated metal tables and benches add a stylish flair to schools, parks and commercial outdoor settings. The number of options, from designs to textures to colors, can mix and fit into settings as a bright accent or a subtle comfort addition. All pieces are of perforated, expanded and welded metal covered with weatherproof thermoplastic for long lasting use.

ADA Wheelchair accessible versions.

Add a colorful touch

Add your logo or a memorial message to the back of a bench

Square, rectangular, and round picnic tables extend a cafeteria to an outdoor seating arrangement. Coordinating waste receptacles and café tables or benches allow for the design of enjoyable outdoor spaces with multiple uses. The **Getzen** line can be portable, surface or in-ground mounted.

options

The **Getzen** line is broad and diverse to answer the many environments that are found in educational, municipal, and commercial designs. This line brings an interior design out of the building with a graceful transition. All pieces were developed for their longevity, ease of care, and color options to coordinate or accent its location.
