

## Conversation Table Specs

### Features, Construction and Accessories

#### Construction

- 3" panel with supports on the length and raceways for running electrical. Panel legs with rigid attachment points. Top surface to overlap panel legs by ¼" each direction.

#### Tops and End Panels

- Laminate options - Wilsonart® selections are available for standard tabletop and leg selections. (Wilsonart® -60 or -38, other options and custom graphics available at an up-charge. Custom graphics available on top only.)
- Solid Surface – Corian® Top – Solid, nonporous surface composed of acrylic resin and natural mineral. Resistant to stains and extreme weather conditions. Private Collection and Metallic are not available. Upper shell to have ½" thick material. End panels ¼" thick material if available with inner surface to be coordinating laminate. Modesty panels to be laminated also in coordinating laminate. (Custom graphics/logos available. Call for quote.)
- In-Lay Logo – Available as requested. Limitations apply.

#### Grain Direction

- Direction to run long direction on top. Ends to match top surface. Panel ends to follow top direction.

#### Privacy Panel

- 30" depth, single modesty - ¾" thickness (laminate) x 11.5" width, with 3mm PVC edges. Length varies per size of table. Standard on all tables.
- 36" depth, dual modesty, wire management trough - ¾" thickness (laminate) x 11.5" width, with 3mm PVC edges. Length varies per size of table. Standard on all tables.

#### Kick Area

- 4" kick toe area covered in brushed stainless steel (table laminate option). Solid surface options will run to floor. Glides standard. Not available with casters.
