

SMARTedge

SMARTedge is a “gorilla tough” urethane edge that is not only rugged but 65% of the material consists of renewable bio-based resource. SMARTedge is a design favorite for its contemporary styling and its ergonomic comfort:

- SMARTedge has antimicrobial additives which include antibacterial and antifungal properties to ward off possible infectious germs.
- The SMARTedge urethane creates a liquid tight seal to the laminate and substrate.
- Custom color matching available to match your specific need.
- UV stabilizers in material for protecting against color fade and break-down.

Note:

- For orders with non standard colors of 20 units or less, an upcharge of \$375 list per order per color will be applied.
