

High Pressure Laminate

Woodgrains | Traceless | Solids | Patterns | Stones

 **Wilsonart®**

Your vision, *delivered.*

Whatever vision you see, we see it through with a limitless collection of the most sustainable High Pressure Laminate designs. The Wilsonart HPL designs in this brochure showcase our in stock offering—ready when you need it—while hundreds of additional made to order designs provide even greater creative freedom. Crafted for affordable luxury and practical performance, our HPL delivers the perfect balance of art and engineering for every environment, backed by service you can count on.

Limitless Designs

Choose from the industry's largest selection of high pressure laminate surfaces.

#1 in Sustainability

Made from 26% post-consumer recycled content on average, which is 2X more than other leading laminate brands.

3X More Wear Resistant

When powered by AEON™ Performance Technology, Wilsonart HPL is 3X more resistant to wear, scratches, and scuffing than other laminates.

Unmatched Reliability

With over 100 locations across North America, our Wilsonart distribution network gets products to you complete and correct, and on schedule.

8299K CANOPY

Woodgrains

The smarter way to do wood

Wilsonart Woodgrains® captures the warmth and character of real wood in a surface engineered for durability and consistency. A broad selection of species, cuts, stains, and textures deliver strikingly real designs without the supply volatility, species markups, or maintenance concerns of wood veneer.

The latest introductions expand the offering with balanced, design-forward woodgrains that create visual continuity while supporting greater creative flexibility.

*Compared to wood veneer.

ENHANCED PERFORMANCE

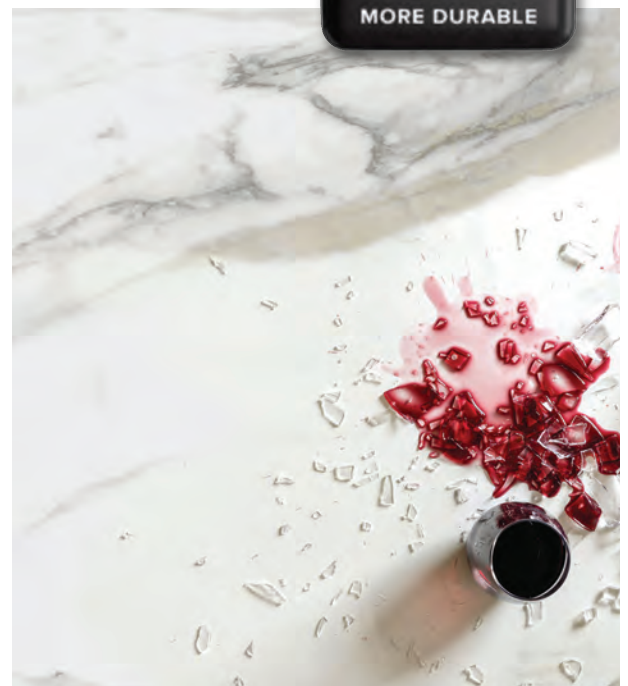

AEON™ Performance Technology

3X More Durable — Built In.* AEON transforms HPL into stronger, more durable surfaces with extraordinary performance for high-traffic, high-use spaces. All while invisibly protecting your beautiful designs long into the future.

- 3X more wear resistant
- 3X more scuff resistant
- 3X more scratch resistant

Choose confidently. Design boldly. Use fearlessly. Wilsonart® HPL surfaces with AEON are 3X more durable* than competitive laminates, perfect for high-traffic, high-use applications. Keep your design looking like new, longer. More possibilities. More beauty. More years. All with more confidence.

*Up to three times compared to competitive laminates with a similar finish.

about AEON

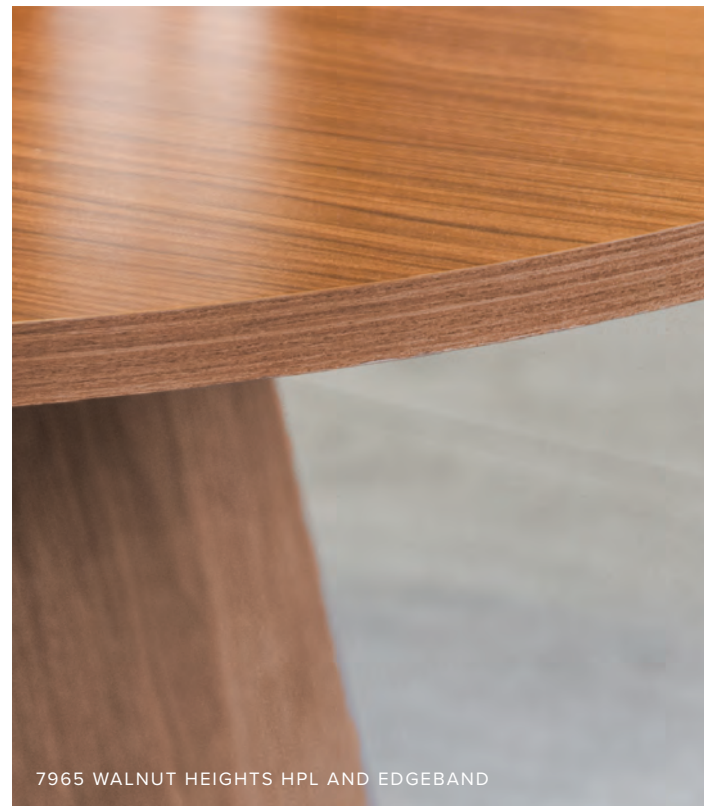

Coordinated *Surfaces*

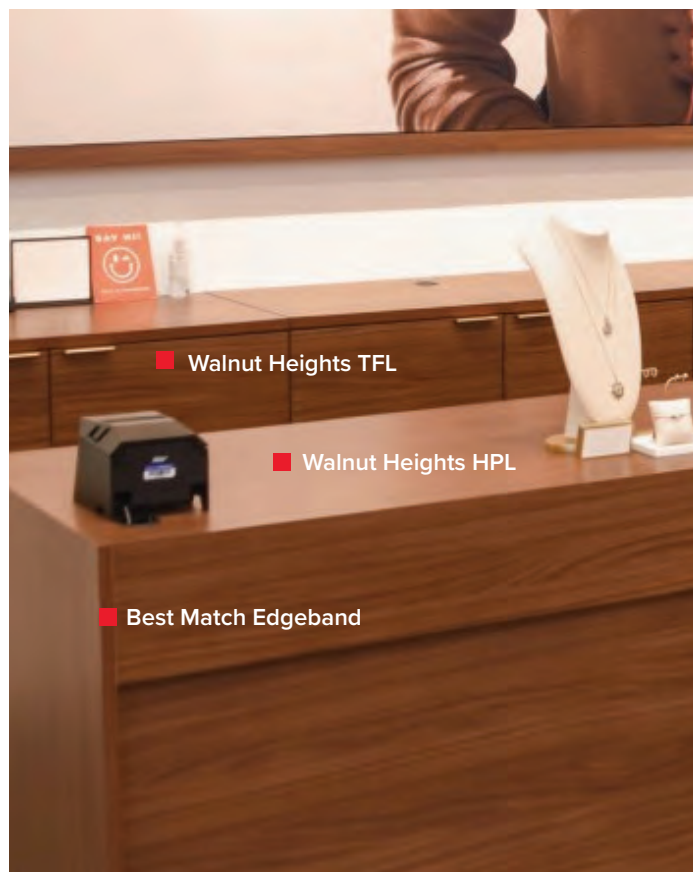

The best solution for coordinating HPL, TFL, and Edgeband

Choose the design you love. Get the best of performance and price by mixing and matching the right product with the right application. Wilsonart's Coordinated Surfaces make it easy to harmonize your design by specifying consistent patterns and textures from a single source.

Discover the largest line of coordinated designs and textures on the market, with hundreds of woodgrains, solids, and patterns

7965 WALNUT HEIGHTS HPL AND EDGEBAND

BEST-MATCH DESIGNS

High Pressure Laminate

Durable HPL protects high-traffic countertops, panels, interior doors, and curved surfaces.

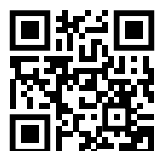

Thermally Fused Laminate

Thermally Fused Laminate panels are cost-effective for cabinet doors, open shelving, low-traffic wall panels, and closet systems.

Edgeband

Readily available edgeband that's been pre-selected to coordinate with each design.

- Realistic stone looks
- 100+ designs available
- High durability versus natural stone

Stones

The best of polish and performance

From industrial concretes to refined natural stone aesthetics, explore HPL designs engineered to capture the authentic character and texture of stone and stand the test of time.

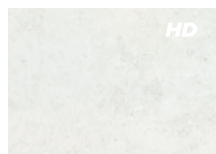

Designs span a range of stone aesthetics—from marble and granite to quartzite and soapstone—delivering depth, variation, and performance. Complementary tones range from light neutrals to deeper hues for versatile application, with easy upkeep that requires only soap and water.

Create *Your Own* Custom HPL

Bring your ideas to life with the Wilsonart Create Your Own program. Wilsonart's Create Your Own program gives you unlimited creative freedom, from optical solids and custom woodgrains to fully branded designs built around your original artwork. Choose your customization path with no order minimums, and get custom laminate delivered in four weeks or less.

OPTION 1

Woodgrain Custom Staining

Create a one-of-a-kind wood look with custom staining that can match any color target. Woodgrain Custom Staining allows you to

explore the endless possibilities for woodgrain customization, whether you need to tweak a neutral beige or want a dazzling bright color.

OPTION 3

Wilsonart by You (WxY)

Explore a limitless world of creative possibilities.

Wilsonart by You lets you create branded surfaces with your logo, design your own

graphic pattern, or create a laminate out of your own photography.

OPTION 2

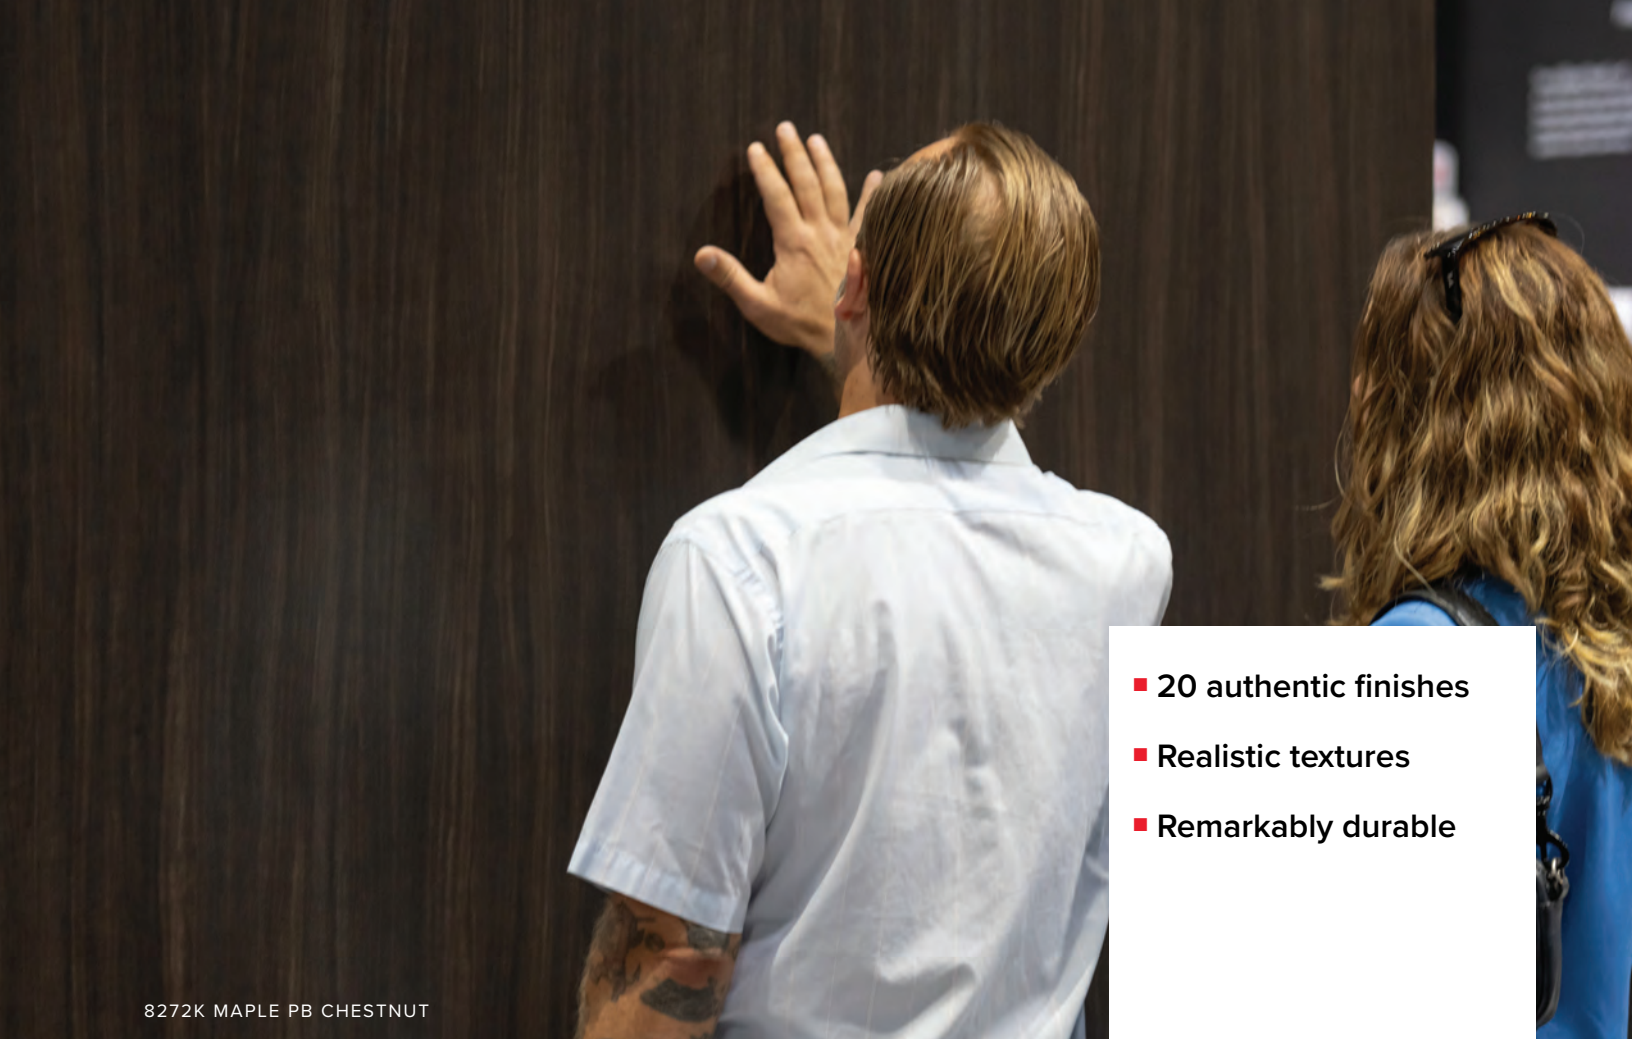

Spectrum Color Alteration

Reinvent the color wheel and strike the perfect tone by creating your own optical solid color HPL. Spectrum Color Alteration is your opportunity to create an optical solid color HPL in any hue, tone, or shade you can imagine.

Specialty *Laminates*

PEEL AND STICK LAMINATE

Re-Cover™

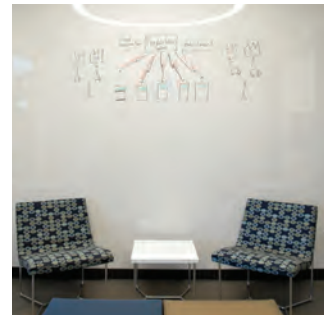

Transform any space in place with peel-and-stick surfaces that install over existing fixtures, cutting cost, waste, and downtime without a full remodel.

WRITABLE SURFACE

Markerboard

Wilsonart Markerboard is a durable and affordable writing surface for classrooms, offices, athletic facilities, or restaurants with an ever-changing menu board.

AUTHENTIC METAL

Decorative Metals

Redefine luxury and sophistication with striking Decorative Metals that are beautiful enough to be their own unique pieces of art and versatile enough to be used in a variety of interior applications.

Performance *Enhancements*

ENHANCED PERFORMANCE

AEON™ Performance Technology

AEON transforms Wilsonart HPL into a stronger, more durable surface designed for high-traffic, high-use spaces. Engineered to be 3X more resistant to wear, scuffs, and scratches*, AEON helps keep surfaces looking beautiful longer while invisibly protecting your design for years to come.

ENHANCED PERFORMANCE +

HD Laminate

Wilsonart HD Laminate features proprietary AEON Performance Technology with scratch, scuff, and wear resistance — plus antimicrobial protection.

CHEMICAL-RESISTANT LAMINATE

Chemsurf®

Wilsonart® Chemsurf provides exceptional resistance for environments where chemicals and harsh cleaners are used.

ULTIMATE DURABILITY

High Wear Laminate

Our High Wear Laminate is built for heavy-use commercial environments and offers more than seven times the industry standard for abrasion resistance.

Ideal for high-traffic surfaces, it maintains appearance and performance even through prolonged use.

FIRE-RATED LAMINATE

Fire-Rated

This long-lasting laminate meets or exceeds fire codes across the country and comes in a wide range of designs.
